DAYTON, OHIO 45409 AREA CODE 513 461-5500 EXT. 500

DAYTON, Ohio, September 18, 1968 --- "Time Shared Computers, Programming and Use," is a new course to be conducted in October by the Special Sessions Department at the University of Dayton. The course, which is co-sponsored by the McCall Information Services Company of Dayton and Com-Share Inc. of Cincinnati, is open to all who are interested and does not require any previous background in computers.

The course starts on Monday, October 7, in Room 15 of Miriam Hall and runs five succeeding Mondays. All sessions are three hours from 7 P.M. to 10 P.M.

Taught by Mr. Verner A. Tepe of Com-Share Inc., the course explains what time-sharing means, the fundamentals of on line, time-shared computer service for a wide variety of users, how the hardware and software works, "hands on" experience in programming and the operation of programs on an electric computer via a teletype terminal. Each participant will have the opportunity to program and run several programs.

For information call Miss Nora Duffy, Special Sessions Department, 461-5500, Ext. 346.
